

Find your client's kind of bronze.

Start with the cosmetic base. Then choose the depth and formula for your client.

SOLUTION FAMILY	COSMETIC BASE	WHEN TO CONSIDER IT	THE FINISH
 Signature	Green	A natural bronze option. Can pull pink on light skin tones.	Natural bronze. Choose the depth and formula for the individual client.
 Preferred Universal	Green + violet	Made for all skin tones. A blend of Signature and Violet.	Balanced bronze from its Signature and Violet blend. Choose the depth for the individual client.
 Violet	Violet	Especially suited to olive skin tones and clients who tend to pull pink or yellow. Also suitable across skin tones.	A richer, deeper brown finish.
 Espresso	Violet + espresso	Like Violet, especially suited to olive skin tones and clients who tend to pull pink or yellow.	A richer, deeper brown finish. Contains espresso bean extract.
 Rose Gold	Rose + gold	Especially suited to olive to darker skin tones.	Warm bronze with golden and rosy tones.
 Bronzer Free	Clear	All skin tones, especially clients who prefer no immediate cosmetic guide color.	Gradual developing color without cosmetic bronzer. Final depth still depends on the formula and DHA level.
Simple	Plant-based brown bronzers	Clients looking for a plant-derived cosmetic bronzer.	Natural brown finish. Just 7 ingredients, including hyaluronic acid. Check the full ingredient list for individual sensitivities.

ONE HOUR TAN IS A SEPARATE FORMULA

30 / 60 / 90-minute rinse options for lighter / medium / deeper color. Color continues developing after rinsing. These timings do not apply to every Rapid Tan or Quick Dry formula. Follow the selected product's directions.

Adapted from the JMT Sunless Solution Guide and updated with Mandy's skin-tone guidance. Results vary with skin tone, application and formula. Patch test; check ingredients and directions. Self-tanner is not sun protection. Product photos show packaging references, not every depth or size.
