

SOLUTION GUIDE:

All JMT Sunless solutions are available in different DHA percentages and formulas to customize every tan:

- **Classic Solution (8–12 Hour Rinse):**
 - 8% — Light
 - 10% — Medium
 - 12% — Dark
 - 16% — Ultra Dark
- **Rapid Rinse Solution (1–5 Hour Rinse):**
 - 14% DHA — ideal for clients who prefer a quicker rinse and flexible development time.
- **Quick Dry Formula:**
 - Designed for a lighter, less sticky feel while still delivering rich, even color.
- **Sweat-Resistant Option:**
 - Infused with DMI technology to help your tan last longer and resist sweat, humidity, and daily activity.
- **Triple Action Bronzers**
 - solutions are formulated with bronzers that activate through three different phases. Days 1-2: Build Phase. Days 3-7: Maintain Phase. Days 8-10: Sustain Phase.

Solution Line	Cosmetic Base Color	Best For Skin Tone/Undertone	Final Result/Key Feature
	Green Base	Universal shade that looks good on everyone. Neutralizes orange tones.	Provides a natural bronze. Note: Can pull pinkish-yellow tones on redheads.
	Green + Violet (Neutral)	All skin tones where an exact match is uncertain (versatile blend of signature & violet line).	True Brown. A balanced blend that settles into a reliably neutral, medium-to-dark brown.
	Violet Base	Ideal for those with yellow/golden undertones (warm/olive skin).	Rich Chocolate Brown. Violet counteracts yellow tones to achieve a deep, rich, non-muddy color.
	Violet Base + Espresso	Based on the Violet Line principle with added espresso bean extract.	Focuses on a dark brown finish with violet bronzer & contains real espresso extract! Deep Brown result.
	Rose + Gold	Designed for olive to dark skin tones that tan well naturally.	Warm, Sun-Soaked Bronze. Gives a glow with rich, golden warmth and a hint of rosy depth.
	Clear Base	Any skin tone where a bronzer guide is undesirable (e.g., bridal, white clothing).	Customizable Tan. No cosmetic color means zero transfer, though the final color is still controlled by DHA level.
	Natural Plant Base Bronzers (Brown)	100% Plant-Based Bronzers from fruits and vegetables — refined to exclude additives. Perfect for all skin tones, including sensitive or eczema-prone	Deep, natural brown finish that develops on all skin types. Fast-developing, plant-powered bronzers for a flawless glow.j
